Hi Monica,

I think the talking points as drafted address the issues Lori raises, in an email back to her, I think you could highlight the need for protection of public health and the environment and our Tribal trust responsibility. As far as the review time requested, we are really asking for ASAP, however, I believe Janet asked for 30 days with the national oil and gas rules, so that may be what she is comfortable asking for related to expediting the review.

Thanks,

Dee

Hi Joan and Dee – Janet's office reached out to me about the U&O FIP talking points.

Dee – Can you look at the points again and make sure they address what Lori notes?

Monica, I don't think we have met but I am Janet McCabe's Chief of Staff. Our understanding is that you'd like to ask OMB to expedite review of the this O&G FIP proposal. Janet plans to call Dom Mancini about this. Can you please share some talking points regarding the time pressures, the review time requested, etc. for Janet's use on her call to OMB? Thanks very much.

Today, OP approved R08's Federal Implementation Plan for Existing Oil and Natural Gas Sources; Uintah and Ouray Indian Reservation in Utah (5872) for transmission to OMB for interagency review. This tier 3 NPRM has been submitted to 'ROCIS'. ADP Tracker has been updated. The screen shot is below.
